

We support tea farmers!

# KAWASAKI

**(Provides Safety and Reassuranec)**

**Advanced foreign object remover with super sensitive camera**  
Kawasaki strives to eliminate all foreign object mixture incidents.

Transparent foreign objects which were difficult to be detected by conventional systems can be detected using a super sensitive camera. Sealability of the machine is improved to prevent foreign objects from entering from outside.

A magnet is equipped to remove fine iron powders. (Optional)

## High-end type Foreign object remover

- Respond to chlorophyll contained in good quality tea leaves, and identify good products or bad products instantly. High performance machine only Kawasaki can offer.
- Our proprietary 2-step sorting function misses no foreign objects.
- High speed large flow volume ejector removes foreign objects accurately.
- Vertical bucket conveyor with raw material box is equipped as standard.

### Specifications

Model	Maximum performance capacity (kg/h)
Foreign object remover KFR-1	<ul style="list-style-type: none"> <li>- 1-step sorting: 400 to 600</li> <li>- 2-step sorting: 200 to 300</li> </ul>

Select & Clean

## Economy type Foreign object remover
